

You and your adult will pick five businesses you want to visit. You will learn about how that business uses math and do a math problem with them. You can visit all five on one day or spread it out over a few days. When you visit you will be excited and maybe a little nervous. Don't worry, the employees at the business are excited for your visit. What a great way to earn prizes!

Once you arrive, you will walk into the business that you picked from the map.

Don't forget to bring your paper with you!

You or your adult can find an employee and say "Hi". Give them your paper.

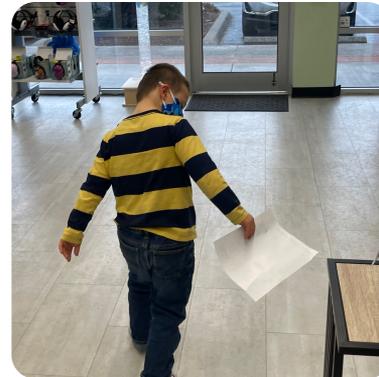

They will ask you what level math you want to do. You pick what is best for you!

Have fun! Don't worry if you need help, that is what they are there for.

When you are done, the employee will sign your paper. You have just completed your mission.

Say "goodbye" and bring your paper with you for the next location. If it is your last visit, you get to turn it in!

Don't forget your adult on the way out!

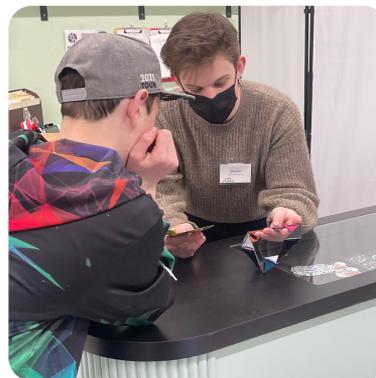

Math 4 Life is a fun way to learn about businesses and win great prizes. Pick five businesses from the map. Visit all five on one day or spread it out over a few days. When you visit you will be excited and maybe a little nervous. Don't worry, the employees at the business are excited for your visit.

You may be excited and a little distracted. Don't forget to be careful in the parking lots.

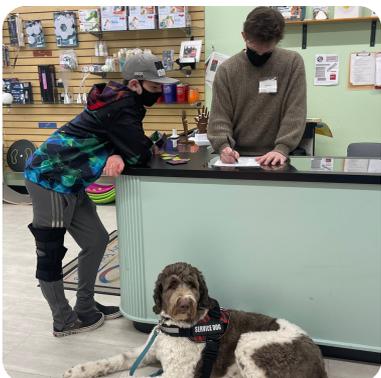

When you enter the business, you will be greeted, or you may say hi to them first.

You will learn about the business and how they use math.

Let the employee know what level math you do. You pick what is best for you!

Have fun! Don't worry if you need help, that is what they are there for.

When you are done make sure to get your paper signed.

Don't forget to say "thank you" and bring your paper with you for the next location. If it is your last visit, you get to turn it in!

Bye!
